

Shopify Frontend Developer

Targeting new heights of success with integrity, hard work & dedication, and leaving a mark of excellence on every step with a company providing continuous learning opportunities in a fast-paced and continually evolving environment.

PROFILE SUMMARY

A results-driven Frontend Developer with **2+ years** of experience building **high-performance** Shopify storefronts and checkout customizations
Specialised in Shopify functions, Checkout UI Extensions , custom discount logic, upsell flows, and pincode validation for Shopify plus brands

Experienced in:

- Shopify theme architecture & scalable section-based development
- Liquid, JavaScript, TailwindCSS, and React basics.
- Building reusable component libraries and high conversion UI.
- Integrating advanced apps like Algolia, Dynamic Yield, Recharge, Orderify.
- Improving SEO, UX and site performance through structured development

Highly adaptable, collaborative, and committed to delivering polished, conversion-focused e-commerce experiences.

CORE COMPETENCIES

- HTML5, CSS3, Tailwind, JavaScript (ES6+), React
- Shopify Liquid, ThemeKit, Shopify CLI, Metafields
- Figma to Shopify Translation, Site Speed Optimisation (SSO)
- Git, GitHub, VS Code, Cursor AI, Postman
- SEO Best Practices, Accessibility
- Relationship Building, Team

PROFESSIONAL EXPERIENCE

Sep 2024 – Current | Ecom Experts | Shopify Frontend Developer

- Built and customised scalable Shopify themes tailored for D2C and B2B brands with a focus on **performance, accessibility, and responsive UI**.
- Integrated apps such as **Langify, Algolia, LimeSpot**, and **Dynamic Yield**, enabling translation, advanced search, personalised recommendations, and A/B testing capabilities.
- Implemented **Shopify Functions** and **Checkout Extensions** for use cases such as upsell offers, advanced discount logic, cart validation, and pincode-based shipment restrictions.
- Optimised storefront performance by refining Liquid loops, enabling lazy loading, compressing assets, and improving CLS for enhanced SEO.

Aug 2025 – Jan 2026 | WordsWorth AI | Shopify Frontend Developer

- Built a large-scale **section repository** using TailwindCSS, significantly accelerating development across multiple Shopify storefronts.
- Developed **35+ templates** with **300+ reusable sections/widgets**, supporting brand-agnostic layouts, dynamic content, flexible typography, and modular UI patterns.
- Improved delivery velocity: increased output from **2–3 pages/week** at the time of joining to **7–10 pages/week** within 3 months after stabilising the repository.
- Led the migration from traditional CSS to a **Tailwind-based design system**, reducing style duplication, improving code maintainability, and standardising UI components across projects.

July 2023 – Aug 2024 | Marmeto | Senior Associate Frontend Developer - SDE 1

- Delivered 8+ Shopify Plus storefronts from scratch for high-growth fashion, skincare, and wellness brands.
- Converted complex Figma designs into **pixel-perfect, mobile-first** templates with strong cross-browser compatibility.
- Built interactive, JavaScript-driven UX features including personalised gift messages, and image customisation modules.
- Revamped a critical **cart & checkout flow**, preventing a potential revenue loss of **~₹4L within 2 days** for a live brand.
- Improved PDP, PLP, and checkout experiences with a focus on speed, usability, and CRO-aligned design.
- Integrated and configured apps like **Recharge, Orderify, and StoreLocator** to enhance store automation and customer experience.
- Mentored junior developers in Shopify ecosystem practices, including version control, theme structuring, and bug resolution.

PROJECT HIGHLIGHTS

- Checkout Extensions & Shopify Functions Suite
Built a suite of Checkout UI Extensions and Shopify Functions, enabling **custom discount logic**, **upsell blocks**, cart validation rules, and **pincode-based delivery** restrictions for multiple Shopify Plus brands, resulting in smoother checkout flows and reduced order errors.
- Modular Section Repository (35 Templates, 300+ Components)
Developed a large-scale, Tailwind-driven component library containing 300+ reusable widgets and 35 templates, enabling design-agnostic layouts and **reducing development time** from 2–3 pages/week to 7–10 pages/week.
- Advanced Personalisation & Dynamic UX Features
Designed and implemented interactive modules including **personalised message add-ons**, **image customisation flows**, and a **greeting card personalisation experience** that allows customers to upload images and add custom notes directly on the product page, boosting engagement and enhancing upsell opportunities.
- Critical Cart & Checkout Revamp (Saved ₹4L Revenue)
Resolved a major checkout exploit for a live brand, redesigning the **cart validation** and **checkout logic** to prevent potential revenue loss of approximately ₹4L within 48 hours.
- Conversion-Focused PDP/PLP Enhancements
Revamped PDPs, PLPs, and landing pages using optimised Liquid logic, Tailwind utilities, modular UI patterns, and structured SEO improvements, resulting in **faster** load times and **higher conversion** potential.
- App Integrations for Scalable E-Commerce
Integrated and configured high-impact Shopify apps including Algolia, Dynamic Yield, Recharge, Langify, LimeSpot, and Orderify to enhance search, **personalisation**, **subscriptions**, and automation across storefronts.
- Analytics & Event Tracking (GTM + GA4)
Configured Google Tag Manager (**GTM**) and **GA4** to track critical e-commerce events, product views, clicks, add to cart, and checkout initiation—enabling analytics-driven UX optimisation.
- Storefront Maintenance & Issue Resolution
Maintained multiple Shopify storefronts simultaneously, ensuring **stable performance**, **quick bug resolution**, and a consistently smooth, **error-free user experience**.

EDUCATION CREDENTIALS

- Bachelor of Engineering (B.E.) — 8.51 CGPA, Graduated 2022
- Higher Secondary Education (12th Grade) — 90%, Graduated 2018
